

John L. Waddington, PhD, DSc, is currently Professor of Neuroscience in Molecular & Cellular Therapeutic at the Royal College of Surgeons in Ireland, Dublin, Ireland. He received his BA from the University of Cambridge in 1974; he received his PhD in Psychopharmacology in 1981 and was awarded a DSc in Neuroscience in 1991, both from the University of London. In 1988 he received the inaugural Research Prize of the British Association for Psychopharmacology and in 2004 he received the CINP-Lilly Neuroscience Award. He is a Foreign Corresponding Fellow of the American College of Neuropsychopharmacology. Prof. Waddington has >350 publications, including articles in Nature, Science, PNAS, Lancet and BMJ. His research continues to focus on the developmental pathobiology and treatment of psychosis and on mutant models of neuropsychiatric disorders.
