Membership Information

Associate Member
(Associate Fee $25)

Associate members shall have training or experience in any of the fields relevant to basic or clinical neuropsychopharmacology, including psychiatrists with a clinical focus in psychopharmacology.

Member
depending on country of origin, 4 income classes ($40, $80, $120, $150)*

Members shall have training or experience in any of the biomedical fields relevant to neuropsychopharmacology, and have earned an M.D., Ph.D. or equivalent degree.

Fellow
depending on country of origin, 4 income classes ($40, $80, $120, $150)*

A member may apply to become a Fellow of CINP after being a member of the Association for 5 years. The Credentials and Membership Committee will decide if the applicant has made significant contributions to the Society consistent with the applicant being raised to the level of Fellow.

*Membership is based on the calendar year. Applications are accepted throughout the year and payments are to be made on first joining and thereafter at the beginning of each year.
The International College of Neuropsychopharmacology (CINP) is a truly worldwide organization established over 60 years ago in Zurich, Switzerland and can count on a widespread support from all over the world by its active members. Holding regular meetings in form of Training, Educational Programs and World Congresses, CINP reaches interested researchers all over the world.Clinicians hear about the latest research advances and new treatments whilst researchers are being informed about new clinical needs and problems. Therefore, CINP is dedicated to promoting research and education on a worldwide scale.

‘CINP is constantly doing its best to further increase the value for our members worldwide. With innovative and modern concepts, our members have the opportunity to meet at the annual World Congress to discuss recent breakthroughs and developments related to the Neuropsychopharmacology. By connecting biologists, researcher, psychiatrists, neurologists, pharmacologists and psychologists, CINP serves as a platform for a range of different professions. Join CINP now and enjoy the advantages of being a member of a vibrant community.’

Siegfried Kasper
CINP President

Journal

International Journal of Neuropsychopharmacology (IJNP)
The JNP covers all aspects related to Neuropsychopharmacology with the central focus on research that advances understanding of existing and new neuropsychopharmacological agents including their mode of action and clinical application or provides insights into the biological basis of psychiatric disorders and thereby advances their pharmacological treatment.
