

Dear colleagues,

On behalf of the Executive Committee of the CINP, I am happy to inform you about the latest developments and changes within our college.

The CINP Executive Committee will be meeting on December 8, 2018, in the context of the annual ACNP Congress to discuss the future opportunities of the college, the upcoming CINP [International Meeting in Athens \(October 3-5, 2019\)](#), future CINP World Congress destinations and committee activities to further increase the scientific content of CINP.

The CINP International Meeting in Athens next year is getting closer and almost all speakers have been confirmed by now. Various international and globally recognized speakers will give various symposia about Mood Disorders, Psychosis, ADHD and Insomnia during the 2,5-day meeting. These topics will then be discussed in smaller groups during Meet-the-Expert sessions and Interactive Workshops. Further information can soon be found on the congress website. CINP is proud to announce a new affiliation with the **Asian College of Neuropsychopharmacology (AsCNP)**, which will hold its biennial congress in October 2019 in Fukuoka, Japan. We hope this cooperation will become stronger in the future to exchange the latest global breakthroughs and developments with the Asian College and vice versa. CINP is also in close contact with other societies and colleges to further develop our international relations.

The College is also happy to announce the new '**CINP Neurotransletter**' which will be sent to you every other month informing the CINP community on the

latest news regarding our upcoming congresses, recent developments in the world of Neuropsychopharmacology and other activities.

After we redesigned our website, we will shortly introduce the CINP App which you can then download on your smartphone or tablet. This will give you the opportunity to receive all CINP related information on your smart device, whereas the app will also serve as the Congress app for our International Meeting next year. Soon, you will receive more information about the app and how to download it.

With kind regards,

A handwritten signature in blue ink, appearing to read 'Kasper', is written over a white background.

Prof. Siegfried Kasper  
CINP President
