

# NEUROTRANSLATTER

The CINP would like to introduce the new CINP Neurotransletter which will be sent out every other month to all our subscribers, alternating with the Message from the President. The newsletter will include information about the latest developments within CINP, literature updates, congress updates, information about the CINP Membership or other relevant updates within the neuropsychopharmacology.

In case you missed to read one in the past, you will find all Neurotransletters from the past on our [website](#). Also, you can share the [subscription link](#) with your colleagues if you think they might be interested in receiving the Neurotransletter.

## **Annual World Congress**

---

[cinp.org](http://cinp.org) | [cinp@cinp.org](mailto:cinp@cinp.org)

On behalf of the International College of Neuropsychopharmacology (CINP) Executive Committee, I would like to invite you to the 2019 CINP International Meeting taking place in Athens, Greece in October 2019 as well as the 32nd CINP World Congress of Neuropsychopharmacology taking place in Taipei, Taiwan in June 2020.

The 2019 CINP International Meeting will focus on breakthroughs & controversies in mood disorders, schizophrenia, ADHD, and insomnia. The 2019 Athens Meeting looks to expand on the 2017 Prague Meeting on Treatment Resistant Depression and extend the program to a wider field of psychiatry.

The 2020 World Congress welcomes delegates from all over the world to the beautiful city of Taipei to carry the momentum of the previous World Congresses in Seoul and Vienna to continue our core mission of attempting to link the advances in brain sciences to the alleviation of the distress and disabilities associated with neuropsychiatric disorders. With advances in neuroscience, we

believe that this is an exciting time for the understanding of psychiatric pathophysiology and the 2020 World Congress will feature the most up-to-date research, diverse topics of interest, and educational sessions with leading experts.

We hope that you will be able to join us to move forward the research and education of psychopharmacology from previous CINP Meetings.

Professor Siegfried Kasper  
President of CINP (2018 - 2020)

The usual biennial change between the CINP World Congress and the Thematic Regional Meeting has been a long tradition for CINP, but will however come to an end after next year. With our World Congress in Taipei, Taiwan in 2020 (June 25-28) a new chapter in the history of CINP will begin. The changing pace of research and new breakthroughs does not go hand in hand anymore with a biennial world congress for an international community. Industry and delegates have shown high interest in an annual global exchange, which led us to the point to go annual with our CINP World Congress. With the [International Meeting](#) next year in Athens (October 3-5, 2019) we will take the first steps towards an annual international congress.

**The tentative congress destinations until 2025 have thoroughly been discussed in the past weeks and will be announced in the next 'Message from the President' in January.**

## Membership Renewal - Reminder

Thank you to our members for being part of the International College of Neuropsychopharmacology in 2018.

As a member, you are part of an international community connected through a common purpose, friendships and the annual world congress where these friendships are strengthened. With upcoming new exciting projects to develop our online content for CINP members, we hope to stay connected and welcome you as one of our members in 2019 again.

## Literature Updates

We would like to provide our community with recent relevant literature updates that are of high value for everyone. You will find more updates on our [website](#).

*Predicting Treatment Response in Depression: The Role of Anterior Cingulate Cortex* - [Full article here.](#)

*Making Sense of Rodent Models of Anhedonia* - [Full article here.](#)

*Ketamine Corrects a Deficit in Reversal Learning Caused by Chronic Intermittent Cold Stress in Female Rats* - [Full article here.](#)

The first renewal reminders have been sent out in the beginning of December and will be sent to you again tomorrow morning. You can also renew your membership by logging into your membership profile {Member\_Profile\_URL}.

You would like to enjoy the [membership benefits](#) of CINP and become a member? Join [now!](#)

*Comparison of rapid and long-lasting antidepressant effects of negative modulators of  $\alpha 5$ -containing GABAA receptors and (R)-ketamine in a chronic social defeat stress model - [Full article here.](#)*

*Default Mode Connectivity in Major Depressive Disorder Measured Up to 10 Days After Ketamine Administration - [Full article here.](#)*

## CINP 2019 International Meeting

The programme for our upcoming International Meeting next year in Athens is complete and will be shared with you in January.

Also, the website will be launched next month and will contain information regarding registration, housing, abstract submission and more.

Further information in regard to the Rafaelsen Young Investigators Award and the Max Hamilton Awards will follow shortly. In the meantime, please send an email to [cinp2019@cinp.org](mailto:cinp2019@cinp.org) for any further questions.

The graphic is a promotional poster for the CINP 2019 International Meeting. It features a top section with a photograph of Athens, Greece, including the Acropolis and the Parthenon. The text 'Save the Date' is prominently displayed in white over the image, with the dates '3-5 October 2019 Athens, Greece' below it. The middle section has an orange background with the CINP logo and the text '2019 CINP International Meeting: BREAKTHROUGHS & CONTROVERSIES in MOOD DISORDERS, SCHIZOPHRENIA, ADHD and INSOMNIA'. The bottom section has a dark background with a photograph of the Parthenon and the text 'This 2.5 day international meeting will feature plenaries, meet the expert sessions, satellite symposia as well as interactive educational workshops.'
